## Spike W.A.S. (Wheelchair Accessible Scooter) 170X

Manufactured by Wheels on Wheels Motorcycle Works in Klerksdorp, the 170hp crossover was designed as an around-town commuter for paraplegics with good arm and shoulder strength (T2 - T12; L1 - L5 and S1 - S5 paraplegics), or riders whose legs have been amputated.

The base model used is a Gomoto 170X, so it is similar in technical specifications, except for maximum speed (which has been affected by the conversion) that drops down to 85km/h. Fuel consumption has also been somewhat reduced.

It has a wheelchair ramp that is retractable with cable operation, park brakes, reverse mode, wheelchair locking mechanisms, a seatbelt, and a second luggage compartment.

It can be completely customised to suit the rider because units are only manufactured on order due to the complexity of every individual's motorised level and skill. Standard models go for R62000, but an additional 5-liter fuel tank can be added for R980 and performance enhancements kits can be installed for R4800.

## Harley Davidson King of all Test Rides Competition

Harley-Davidson is offering all motorcycle riders in EMEA (Europe, Middle East & Africa) who take a test ride on a Dark Custom motorcycle the chance to win a once-in-a-lifetime prize – to design their

very own custom motorcycle with Harley senior industrial designer, Dais Nagao, as well as an epic US trip including a California and Milwaukee experience.

The winning rider will be able to choose any Dark Custom motorcycle and work alongside Nagao to design their dream bike in the USA. Once designed, the bike will be built by a local Harley-Davidson dealer. The trip includes a money-can't-buy VIP trip to Milwaukee, the home of Harley-Davidson, where the winner will stay at a local hotel and receive a tour of the Harley-Davidson Museum, alongside tickets to sports and/or music events taking place locally.

To enter the competition, riders simply need to book a test ride on one of Harley-Davidson's Dark Custom bikes.
