

very welcome dual sport tyre service. Many riders would not have been able to ride home without their help.

It was a brilliant weekend. The tent city at the Drakensville "base camp" was home to most of riders for the weekend, supplemented by accommodation in chalets at the ATKV resort as well as many surrounding resorts. There were rows and rows of GS models of every vintage, a display of the strength of the BMW brand. And there were many BMW dealer principals, all of whom had organised groups of customers from their dealerships to ride together to and from the events.

After the prize giving on Saturday night, lots of live music kept the party going for the many who finished off a great weekend on a happy note.
